Hello ,

Please kindly introduce more regulations regarding plastic use and recycling. I see so lots of things thrown out that can be recycled , including plastic water bottles , and plastic food and toiletry containers .

Also may I kindly suggest more public service announcements and incentives to get people to recycle?

My daughter has heard that HK doesn't recycle and that items put Into recycle bins are just thrown away .

Also , it's discouraging to see people putting trash into recycle bins.

May I kindly ask if bubble wrap and styrofoam packing blocks are recyclable ?

Thank you very much .

Best regards,
